Practice Exam Guide Nppe

Practical Law of Architecture, Engineering, and Geoscience, 3Ce: The choice of professional engineers across Canada! Practical Law presents the most up-to-date concepts and changes in the legal field, while presenting new case studies and new coverage of topics such as Quebec law, international law, the relationship between ethics and the law, breach of confidentiality, and safety and professional liability issues related to the Criminal Code of Canada. The new third Canadian edition of Practical Law prepares students for their professional exams. The text contains the content necessary to ensure that engineers are prepared for their professional examinations and offers online practice tests to reinforce learning. It is appropriate for one-semester ethics or law classes taught in engineering, architecture, geoscience, and construction departments.

This comprehensive textbook introduces engineers and geoscientists to the structure, practice, and ethics of their professions and encourages them to apply ethical concepts in their professional lives. It is a comprehensive reference for engineers and geoscientists in any branch of these professions, in any province or territory of Canada. The book is intended for practicing professionals, recent graduates, and senior undergraduates and is an excellent study guide for the practice and ethics part of the Professional Practice Examination (PPE) required for licensing in every province and territory.
