There are so many books on so many aspects of the history of the United States, offering such a wide variety of interpretations, that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history. In doing so, they focus on the question of to what extent these enemy images influence the formulation and outcome of foreign, domestic, and immigration policies.

The Oxford Handbook of Religion and Race in American History brings together a number of established scholars, as well as younger scholars on the rise, to provide a scholarly overview for those interested in the role of religion and race in American history. Thirty-four scholars from the fields of History, Religious Studies, Sociology, Anthropology, and more investigate the complex interdependencies of religion and race from pre-Columbian origins to the present. The volume addresses the religious experience, social realities, theologies, and sociologies of racialized groups in American religious history, as well as the ways that religious myths, institutions, and practices contributed to their racialization. Part One begins with a broad introductory survey outlining some of the major terms and explaining the intersections of race and religions in various traditions and cultures across time. Part Two provides chronologically arranged accounts of specific historical periods that follow a narrative of religion and race through four-plus centuries. Taken together, The Oxford Handbook of Religion and Race in American History provides a reliable scholarly text and resource to summarize and guide work in this subject, and to help make sense of contemporary issues and dilemmas.

This Oxford Handbook comprehensively examines the field of Latin American history.

Lists fiction and nonfiction titles and related activities

A history of the United States in the twentieth century, featuring sociological and cultural events, as well as strictly historical, and using many pertinent literary excerpts.

Making learning fun and interactive builds excitement for your social studies students. This book includes game-formatted activities for the study of important events in American history such as Colonial America, The American Revolution, American Indian Experience, The Civil War, the Oregon Trail, Immigration, and the Civil Rights Movement. These hands-on activities are aligned to state and national standards and supports college and career readiness skills. The hands-on lessons foster engagement, teamwork, creativity, and critical thinking. In addition to history-based lessons, this resource includes grading rubrics and ideas for assessment. The games in Hands-on History Activities will help you take an active approach to teaching while inspiring your students to make their own explorations of history.

Complete resource guide helps children understand Colonial American life with hands-on activities, maps, photos and more reproducible items. Full-color poster included.

Considers geographic, economic, social, and cultural aspects of the American past from both larger (the "Anglo World," the West) and smaller (regional and local) perspectives to reduce American "exceptionalism" to proper proportions.

Argues that conventional analyses have failed to recognize the significance of ethnicity, as opposed to race, in understanding Black history in America.

A fresh compilation of essays and entries based on the latest research, this work documents African American culture and political activism from the slavery era through the 20th century. • Contributions from over 100 specialists on African America and the African diaspora • A spectacular selection of illustrations and photographs, such as a Kongo cosmogram, the African burial ground in New York City, and maps of the Triangular Trade and the Underground Railroad

The field of American history has undergone remarkable expansion in the past century, all of it reflecting a broadening of the historical enterprise and democratization of its coverage. Today, the shape of the field takes into account the interests, identities, and narratives of more Americans than at any time in its past. Much of this change can be seen through the history of the Organization of American Historians, which, as its mission states, "promotes excellence in the scholarship, teaching, and presentation of American history, and encourages wide discussion of historical questions and equitable treatment of all practitioners of history." This century-long history of the Organization of American Historians—and its predecessor, the Mississippi Valley Historical Association—explores the thinking and writing by professional historians on the history of the United States. It looks at the organization itself, its founding and dynamic growth, the changing composition of its membership and leadership, the emphasis over the years on teaching and public history, and pedagogical approaches and critical interpretations as played out in association publications, annual conferences, and advocacy efforts. The majority of the book emphasizes the writing of the American story by offering a panorama of the fields of history and their development, moving from long-established ones such as political history and diplomatic history to more recent ones, including environmental history and the history of sexuality

For more than twenty years, Tim Grove has worked at the most popular history museums in the United States, helping millions of people get acquainted with the past. This book translates that experience into an insider's tour of some of the most interesting moments in American history. Grove's stories are populated with well-known historical figures such as John Brown, Charles Lindbergh, Meriwether Lewis, William Clark, and Sacagawea—as well as the not-so-famous. Have you heard of Mary Pickersgill, seamstress of the Star-Spangled Banner flag? Grove also has something to say about a few of our cherished myths, for instance, the lore surrounding Betsy Ross and Eli Whitney. Grove takes readers to historic sites such as Harpers Ferry, Fort McHenry, the Ulm Pishkun buffalo jump, and the Lemhi Pass on the Lewis and

Clark Trail and traverses time and space from eighteenth-century Williamsburg to the twenty-first-century Kennedy Space Center. En route from Cape Canaveral on the Atlantic to Cape Disappointment on the Pacific, we learn about planting a cotton patch on the National Mall, riding a high wheel bicycle, flying the transcontinental airmail route, and harnessing a mule. Is history relevant? This book answers with a resounding yes and, in the most entertaining fashion, shows us why. William Appleman Williams was the American history profession's greatest critic of US imperialism. The *Contours of American History*, first published in 1961, reached back into British history to argue that the relationship between liberalism and empire was in effect a grand compromise, with expansion abroad containing class and race tensions at home. Coming as it did before the political explosions of the 1960s, Williams's message was a deeply heretical one, and yet the Modern Library ultimately chose *Contours* as one of the best 100 nonfiction books of the 20th Century. This fiftieth anniversary edition will introduce this magisterial work to a new readership, with a new introduction by Greg Grandin, one of today's leading historians of US foreign policy.

Alphabetically-arranged entries from J to N that explores significant events, major persons, organizations, and political and social movements in African-American history from 1896 to the twenty-first-century.

The American Revolution Have you struggled with finding good resources? This book contains 35 ready-made lessons for teachers to use in the classroom! This is the complete collection of Reading Through History's seven-part American Revolution series. It contains 35 readings centered around the years leading up to America's War for Independence and the events that took place during the conflict. Each one-page reading also has student activities to accompany the material. The lessons include guided reading activities, true and false questions, vocabulary activities, student response essay questions, and multiple choice reading comprehension questions for each lesson. There is also a section word builder to wrap up the activities and two ready-made tests. This workbook has the materials any teacher would need to thoroughly cover the events and figures of the American Revolution. There is enough material to get you through 5-6 weeks of the school year. Topics covered in the material include: Table of Contents: Unit 1: The French and Indian War Pg. 1 Proclamation of 1763 Pg. 5 The Albany Plan of Union and Committees of Correspondence Pg. 9 The Stamp Act Pg. 13 The Stamp Act Repealed Pg. 17 Unit 2: The Townshend Acts Pg. 22 The Boston Massacre Pg. 26 The Boston Tea Party Pg. 30 The Intolerable Acts Pg. 34 First Continental Congress Pg. 38 The Road to Revolution Post Assessment Pg. 43 Unit 3: Lexington and Concord Pg. 47 Patriots and Loyalists Pg. 51 Second Continental Congress Pg. 55 Ticonderoga and Bunker Hill Pg. 59 The Two Sides Pg. 63 Unit 4: Canada and New York Pg. 68 Common Sense Pg. 72 The Committee of Five Pg. 76 Declaring Independence Pg. 80 The Declaration of Independence Pg. 84 Unit 5: Women in the Revolutionary War Pg. 89 The Leadership of George Washington Pg. 93 The Crisis Pg. 97 Victories in New Jersey Pg. 101 Saratoga Pg. 105 Unit 6: Help from France Pg. 110 African Americans in the Revolution Pg. 114 A Widening War Pg. 118 Valley Forge Pg. 122 John Paul Jones Pg. 126 Unit 7: The War in the South Pg. 131 Guerrilla Warfare Pg. 135 Benedict Arnold Pg. 139 The Battle of Yorktown Pg. 143 Treaty of Paris Pg. 147 American Revolution Post Evaluation Pg. 152

An eleven volume set presents important events in United States history from Colonial times through 1877.

With overview essays and more than 400 A-Z entries, this exhaustive encyclopedia documents the history of Asians in America from earliest contact to the present day. Organized topically by group, with an in-depth overview essay on each group, the encyclopedia examines the myriad ethnic groups and histories that make up the Asian American population in the United States. "Asian American History and Culture" covers the political, social, and cultural history of immigrants from East Asia, Southeast Asia, South Asia, the Pacific Islands, and their descendants, as well as the social and cultural issues faced by Asian American communities, families, and individuals in contemporary society. In addition to entries on various groups and cultures, the encyclopedia also includes articles on general topics such as parenting and child rearing, assimilation and acculturation, business, education, and literature. More than 100 images round out the set.

American history text includes multimedia connections to the Internet, CD-ROM, and videodisc technology. Middle school level.

*Sports in American History: From Colonization to Globalization, Second Edition*, journeys from the early American past to the present to give students a compelling grasp of the evolution of American sporting practices. This text provides students with insights into new and alternative perspectives, examines sport as a social and cultural phenomenon, generates a better understanding of current sport practices, and considers future developments in American sport. The second edition includes the following enhancements: • The final chapter highlights sport in the twenty-first century and gives students an updated view of contemporary sport. • Content about the progressive era now makes up two chapters and provides students with a clearer understanding of this instrumental period. • New "People and Places" and "International Perspectives" sidebars introduce key figures in sport history and provide students with a global understanding of sport. • Time lines with major sport and societal events and milestones provide context in each chapter. • More than 150 images provide historical authenticity and relate people and events to the accompanying text. • Chapter objectives and discussion questions help students absorb and apply relevant content. • An ancillary suite helps instructors prepare for class with an instructor guide, test package, and presentation package. This comprehensive resource delivers coverage of sport by historical periods—from the indigenous tribes of premodern America, through colonial societies, to the era of sport in the United States today. *Sports in American History, Second Edition*, examines how women, minorities, and ethnic and religious groups have influenced U.S. sporting culture. This gives students a broader knowledge of the complexities of sport, health, and play in the American experience and how historical factors, such as gender, ethnicity, race, and religion, provide a more complete understanding of sports in American history. The easy-to-follow material is divided into 11 chronological chapters starting with sporting practices in colonial America and ending with globalized sport today, making it ideal for a semester-long course. The second edition maintains dedication to providing authentic primary documents—including newspapers, illustrations, photographs, historical writings, quotations, and posters—to bring the time periods to life for students. An extensive bibliography features primary and secondary sources in American sport history. *Sports in American History, Second Edition*, is unique in its level of detail, broad time frame, and focus on sports and the evolving definitions of physical activity and games. In addition, excerpts from primary documents provide firsthand accounts that will not only inform

and fascinate readers but also provide a well-rounded perspective on the historical development of American sport. With sidebars offering an international viewpoint, this book will help students understand how historical events have shaped sport differently in the United States than in other parts of the world.

Respected Christian educator, Dr. James Stobaugh, offers an entire year of high school American history curriculum in an easy to teach and comprehensive volume. *American History: Observations & Assessments from Early Settlement to Today* employs clear objectives and challenging assignments for the tenth grade student. From before the birth of our republic to the principles of liberty, American history trends, philosophies, and events are thoroughly explored. The following components are covered for the student: Critical thinking - Examinations of historical theories, terms, and concepts - History makers who changed the course of America - Overviews and insights into world views. Students will complete this course knowing the Christian influences that created a beacon of hope and opportunity that still draws millions to the United States of America.

This student-friendly introduction combines both thematic and chronological approaches in exploring the pivotal role religion played in American history - and of its impact across a range of issues, from identity formation and politics, to race, gender, and class. A comprehensive introduction to American religious history that successfully combines thematic and chronological approaches, aiding both teaching and learning Brings together a stellar cast of experts to trace the development of theology, the political order, practice, and race, ethnicity, gender and class throughout America's history Accessibly structured in to four key eras: Exploration and Encounter (1492-1676); The Atlantic World (1676-1802); American Empire (1803-1898); and Global Reach (1898-present). Investigates the role of religion in forming people's identities, emotional experiences, social conflict, politics, and patriotism

A directory of day, overnight and travel trips for school, scout and homeschool groups with themed trip lesson plans to increase the learning experiences.

An updated and expanded activity book designed to foster cultural awareness provides hands-on activities, songs, and games that help bring to life the people and experiences that shaped African-American history. Original.

These easy-to-use, reproducible worksheets are ideal for enrichment or for use as reinforcement. The instant U.S. history activities in this packet are perfect for use at school or as homework.

Strikes have been part of American labor relations from colonial days to the present, reflecting the widespread class conflict that has run throughout the nation's history. Against employers and their goons, against the police, the National Guard, local, state, and national officials, against racist vigilantes, against their union leaders, and against each other, American workers have walked off the job for higher wages, better benefits, bargaining rights, legislation, job control, and just plain dignity. At times, their actions have motivated groundbreaking legislation, defining new rights for all citizens; at other times they have led to loss of workers' lives. This comprehensive encyclopedia is the first detailed collection of historical research on strikes in America. To provide the analytical tools for understanding strikes, the volume includes two types of essays - those focused on an industry or economic sector, and those focused on a theme. Each industry essay introduces a group of workers and their employers and places them in their economic, political, and community contexts. The essay then describes the industry's various strikes, including the main issues involved and outcomes achieved, and assesses the impact of the strikes on the industry over time. Thematic essays address questions that can only be answered by looking at a variety of strikes across industries, groups of workers, and time, such as, why the number of strikes has declined since the 1970s, or why there was a strike wave in 1946. The contributors include historians, sociologists, anthropologists, and philosophers, as well as current and past activists from unions and other social movement organizations. Photos, a Topic Finder, a bibliography, and name and subject indexes add to the works appeal.

A two volume encyclopedia set that examines the legacy, impact, and contributions of Muslim Americans to U.S. history. 4,000 entries on important names, places, events, and slogans
