Language & Composition Exam is divided into two sections: Section 1 - Multiple-Choice (60 minutes - accounts for 45% of total score) Five or six reading passages, with an average of 10 questions each. Section 2 - Free-Response (up to 120 minutes - accounts for 55% of total score) Three essay questions. The first section consists of five or six reading passages and sixty multiple-choice questions, which you will have one hour to complete. Each passage will be followed by an average of ten questions and thereafter the passage will not be referred to again. Do not feel pressured to remember each reading - just digest them one at a time and move on. After reading the passage, you will have approximately one minute to answer each question. The second section of the AP English Language & Composition Exam consists of three essay questions, and is divided such that you will have forty minutes to write each essay. Do not expect to be able to go back to an essay after the allotted time has elapsed. Note that each essay has very specific instructions, and most have a passage which you will read critically to answer the essay question. Your essays will be scored according to the essay structure, the clarity of your writing, and the extent to which you have answered the question. Scoring the Exam The multiple-choice section of the exam is scored by crediting each correct answer with one point and deducting one-fourth of a point for each incorrect answer. Unanswered questions

receive neither a credit nor a deduction. The free-response essays are graded by more than 5,000 instructors and professors who gather together each June for a week of non-stop AP essay grading. Each essay booklet is read and scored by four graders. Each grader provides a score for the individual essays. This score is a number on a scale from 0 to 9, 0 being the lowest and 9 the highest. The graders are not aware of each other's scores. When the essays have been graded four times, the scores are averaged - one score for each of the three essays - so that the free-response section is composed of three scores. The three essays are weighted equally, and the total weight of the free-response section is fifty-five percent of the total score. The multiple-choice section accounts for forty-five percent of the total score. Each year the overall grades may fluctuate because the grading scale depends upon the performance of students in past AP administrations. The following method of scoring, along with the corresponding chart, will give you an approximation of your score. It will not indicate the exact score you would get on the actual AP English Language & Composition Exam

This book condenses thorough research, and my own classroom practice, into a guide that provides practical and ready-to-use information, which is organized systematically and comprehensively, and is accompanied by a variety of student essay samples, as well as scored student essays - all to show, simply, how one teacher teaches his AP

English Language and Composition class. Although this guide is especially tailored for students of the course who want extra help in becoming the best writers they can be, this concise, instructional manual, can be used by either the instructor of the class or by those who have the time and interest in instructing themselves. The sections of this text are designed for students, who want condensed information, that can help clarify their classwork or pacify their concerns about the material covered in the course. The information herein can be used by instructors, for all classroom purposes, such as handouts, worksheets, and curriculum advice and is especially ideal for instructors who want ideas on how to re-structure their class or want to freshen up their material and pedagogy for the upcoming year, or for those teaching this course for the first time, who may want some guidance. To both, the teacher and the student, this guide will save you time and effort. To the teacher: As it often happens to teachers, we find something interesting we'd like to try, and in the process, discover that in order to implement it successfully, we must tweak it, change it, and frankly, turn it into a completely different activity in order to meet the needs of our students. But as it (also) often happens, teachers wear too many hats, and the one of "curious researcher who wants to continue learning and bring that knowledge into the classroom" is the hat we get to wear the least, because of classroom and teaching demands. I get it. To the student: The strains of the classroom make it difficult, for teachers as well as students, to invest in private reading of auxiliary texts. Most students who take this course are taking

equally challenging courses (sometimes 3 or more), and the pressure of these courses' classwork and homework combined make it difficult for them to be fully invested in each one. It's been my experience that, while my students want to learn more about my course (outside of my class), wading through 500 (albeit useful) pages of information, exams, graphs and pictures of happy students, uncharacteristically smiling while studying is just too much for the average student. I get it. To both, the teacher and the student, this guide will save you time and effort.
