Contemporary Judaism is transforming, especially in America, from a community experience to more of a do-it-yourself religion focused on the individual self. In this book Christopher L. Schilling offers a critique of this transformation. Schilling discusses problematic aspects of Jewish mindfulness meditation, and the relationship between Judaism and psychedelics, proceeding to explore the science behind these developments and the implications they have for Judaism. It changes the worldview of the photographer Bresson! This book has a kind of magic. People have to pass it on like a baton. -Pier Asolina (Bresson biographer) Li Qingzhi, Xu Shuqing, Chen Baiqing, Shan Dexing, Yang Bei, Cai Changxiong recommended What is Zen? I eat when I am hungry, and sleep when I am sleepy. Germany Professor of Philosophy Ogan. In order to pursue the meaning of life that is not available in philosophy, Herrigel traveled across the oceans to Japan to study Zen in the East. After hitting a wall everywhere, he experienced the true meaning of Zen through archery.

In the years after World War II, Westerners and Japanese alike elevated Zen to the quintessence of spirituality in Japan. In this book, the author argues that much of this elevated position is based on misconceptions and that in fact Zen is not based in Buddhism but in Chinese myth.

Here are the biography and teachings of Awa Kenzo (1880 - 1939), the legendary Zen and kyudo (archery) master who gained worldwide renown after the publication of Eugen Herrigel's classic Zen in the Art of Archery. Kenzo lived and taught at a pivotal time in Japan's history, when martial arts were practiced primarily for self-cultivation. ZEN BOW, ZEN ARROW presents his wise and penetrating instructions for practice (and life) - including aphorisms, poetry, instructional lists, and calligraphy - all infused with the spirit of Zen. Kenzo uses the metaphor of the bow and arrow to challenge the practitioner to look deeply into his or her own true nature. Respected author, aikido teacher, Zen practitioner, and Zen calligraphy expert John Stevens presents Kenzo's teachings in an accessible way for contemporary readers. He also presents several classic stories about archery in the East as well as rare photographs of the master.

Cormac McCarthy told an interviewer for the New York Times Magazine that "books are made out of books," but he has been famously unwilling to discuss how his own writing draws on the works of other writers. Yet his novels and plays masterfully appropriate and allude to an extensive range of literary works, demonstrating that McCarthy is well aware of literary tradition, respectful of the canon, and deliberately situating himself in a knowing relationship to precursors. The Wittliff Collection at Texas State University acquired McCarthy's literary archive in 2007. In Books Are Made Out of Books, Michael Lynn Crews thoroughly mines the archive to identify nearly 150 writers and thinkers that McCarthy himself references in early drafts, marginalia, notes, and correspondence. Crews organizes the references into chapters devoted to McCarthy's published works, the unpublished screenplay Whales and Men, and McCarthy's correspondence. For each work, Crews identifies the authors, artists, or other cultural figures that McCarthy references; gives the source of the reference in McCarthy's papers; provides context for the reference as it appears in the archives; and explains the significance of the reference to the novel or play that McCarthy was working on. This groundbreaking exploration of McCarthy's literary influences—impossible to undertake before the opening of the archive—vastly expands our understanding of how one of America's

began to feel his way toward new truths and ways of seeing.

In volume one of this multi-volume series, Marc Ellis explores the essence of the prophetic by intertwining the context of ordinary life and the explosive reality of Jewish identity, the Holocaust and Israel-Palestine. But Ellis's prophetic challenge extends to people of all faiths and backgrounds. For Jews, Christians and Muslims, where does the prophetic come from and how do we define it? Is the heartbeat of the prophetic, God or our own commitment? In our time where belief in God is more difficult does the prophetic suggest only the possibility of God? With or without God is the prophetic worth the suffering that comes the exile's way? Ellis's unfolding narration of the prophetic is unique and probing for those who take life, justice and faith seriously. The books helps to understand how there is a metaphysical reality beyond the sensorial senses.
