C. Scott Littleton's memoir of growing up in Hermosa Beach, California offers a unique and intimate portrait of life on the beach during World War II. 2500 Strand focuses on the years the Littleton clan occupied the beach front property of 2500 Strand. This touching personal history elucidates how one American boy saw the events of a world in peril: from the news of France's capitulation to Germany in 1940, to the tumultuous years in the wake of Pearl Harbor, the underlying war hysteria of Japanese internment camps and nightly air raid drills, and a first-hand account of the famous and unexplained "Battle of Los Angeles." With his typical scholarly insight, attention to detail, and deep love of history, Littleton's memories are unforgettable.

The "Dark Side of Shakespeare" trilogy by W. Ron Hess has been his 20-year undertaking to try to fill-in many of the gaps in knowledge of Shakespeare's personality and times. The first two volumes investigated wide-ranging topics, including the key intellectual attributes that Shakespeare exhibited in his works, including the social and political events of the 1570s to early-1600s. This was when Hess believes the Bard's works were being "originated" (the earliest phases of artistry, from conception or inspiration to the first of multiple iterations of "writing"). Hess highlights a peculiar fascination that the Bard had with the half-brother of Spain's Philip II, the heroic Don Juan of Austria, or in 1571 "the Victor of Lepanto." From that fascination, as determined by characters based on Don Juan in the plays (e.g., the villain "Don John" in "Much Ado")and other matters, Hess even made so bold as to propose a series of phases from the mid-1570s to mid-80s in which he feels each Shakespeare play had been originated, or some early form of each play then existed -- if not in writing, at least in the Bard's imagination. Thus, the creative process Hess describes is a vastly more protracted on than most Shakespeare scholars would admit to -- the absurd notion that the Bard would jot off the lines of a work in a few days or weeks and then immediately have it performed on the public stage or published shortly thereafter still dominates orthodox dating systems for the canon. Hess draws on the works of many other scholars for using "topical allusions" within each work in order to set practical limits for when the "origination" and subsequent "alterations" of each play occurred. In the trilogy's Volume III, Hess continues to amplify a heroic "knight-errant" personality type that Shakespeare's very "pen-name" may have been drawn from, a type which envied and transcended the brutal chivalry of Don Juan. This was channeled into a patriotic anti-Spanish and pro-British imperial spirit -- particularly with regard to reforming and improving the English language so that it could rival the Greco-Roman, Italian, and Frenchpoetic traditions -- one-upping the best that the greats of antiquity and the Renaissance had achieved in literature. In fact, as vast as the story is that Hess tells in his three volumes, there is a huge volume of material he is making available out of print (on his webpage at http://home.earthlink.net/~beornshall/index.html and via a "Volume IV" that he plans to offer on CD for a nominal cost via his e-mail BeornsHall@earthlink.net). Among this added material is a searchable 1,000-page Chronological listing of "Everything" that Hess deems relevant to Shakespeare and his age, or to the providing of the canon to modern times. Hess feels that discernable patterns can be detected through that chronology that help to illuminate the roles of others in the Bard's circle, such as Anthony Munday and Thomas Heywood. The network of 16th and 17th century "Stationers" (printers, publishers, and book sellers) and their often curious doings provide many of those patterns. Hess invites his readers to help to continuously update the Chronology and other materials, so that those can remain worthwhile research resources for all to use. For, the mysteries of Shakespeare and his age can only be unraveled through fully understanding the patterns within.

In The Mirror of Antiquity, Caroline Winterer uncovers the lost world of American women's classicism during its glory days from the eighteenth through the nineteenth centuries. Overturning the widely held belief that classical learning and political ideals were relevant only to men, she follows the lives of four generations of American women through their diaries, letters, books, needlework, and drawings, demonstrating how classicism was at the center of their experience as mothers, daughters, and wives. Importantly, she pays equal attention to women from the North and from the South, and to the ways that classicism shaped the lives of black women in slavery and freedom. In a strikingly innovative use of both texts and material culture, Winterer exposes the neoclassical world of furnishings, art, and fashion created in part through networks dominated by elite women. Many of these women were at the center of the national experience. Here readers will find Abigail Adams, teaching her children Latin and signing her letters as Portia, the wife of the Roman senator Brutus; the Massachusetts slave Phillis Wheatley, writing poems in imitation of her favorite books, Alexander Pope's Iliad and Odyssey; Dolley Madison, giving advice on Greek taste and style to the U.S. Capitol's architect, Benjamin Latrobe; and the abolitionist and feminist Lydia Maria Child, who showed Americans that modern slavery had its roots in the slave societies of Greece and Rome. Thoroughly embedded in the major ideas and events of the time—the American Revolution, slavery and abolitionism, the rise of a consumer society—this original book is a major contribution to American cultural and intellectual history.
