Jd Edwards 91 Documentation

This book reviews the different approaches used to model the dynamic interactions between climate and economies, and proposes new avenues of research. Its fourteen chapters deal with various aspects of the building of integrated assessment models, either by coupling economic growth and climate change modules, or using mathematical models of viability or dynamic game theory to represent the interactions between the world regions concerned.

Documents of Life was originally published in 1983 and became a classic text, providing both a persuasive argument for a particular approach and a manifesto for social research. As a critique of anti-humanist methodology in the social sciences, it championed the use of life stories and other personal documents in research which are now widely used today. This book is a substantially revised and expanded version which takes on recent developments. Providing numerous illustrations from a range of life documents, the book traces the history of the method, examines ways of 'doing life story' research, and discusses the many political and ethical issues raised by such research. The whole book has been substantially re-written and

Featuring contributions from prominent thinkers and researchers, this volume in the "Advances in Management Information Systems" series provides a rich set of conceptual, empirical, and introspective studies that epitomize fundamental knowledge in the area of Business Process Transformation. Processes are interpreted broadly to include operational and managerial processes within and between organizations, as well as those involved in knowledge generation. Transformation includes radical and incremental change, its conduct, management, and outcome. The editors and contributing authors pay close attention to the role of IS organizations and information technologies in facilitating business process transformation. Each chapter places major emphasis on clearly articulating the "knowledge" generated, both theoretical and applied. The book incorporates case studies and tables throughout, and provides fundamental grounding for any stakeholder of business process transformation.
