Syzygy? Jung used the term to describe the balancing of the opposites. Astronomically, syzygy (pronounced si-zi-gee) refers to a specific conjunction of the sun, moon and earth. On Mother Earth, the planet we call home, we are profoundly influenced by the radiance of the sun as well as the reflected light of the moon as we walk between light and darkness, physically and metaphorically. Solar energy evolves the ego and lunar energy evolves our essence. We learn the balance the two as we travel the twenty-two pathways of Kabbalah's Tree of Life.

David K. Miller has teamed up with Torah scholar and Kabbalist expert Mordechai Yashin, who resides in Jerusalem, Israel, to bring you **A New Tree of Life for Planetary Ascension**, which is based on unique lectures and classes David and Mordechai gave over an eight-month period between 2012 and 2013. It functions as a manual explaining the Kabbalistic Tree of Life and the Arcturian Planetary Tree of Life, which is an expansion of the concepts contained in the Kabbalistic tree. The idea behind the Arcturian Planetary Tree of Life is to demonstrate through a paradigm shift how planetary energies can be used to rebalance our planet. The basic assumption is that Earth is currently unbalanced due to a variety of factors, including environmental contamination, global warming, and usage and extinctions of forests and ocean life on a mass basis. It must be pointed out that David has been working with the Arcturians to further upgrade the Planetary Tree of Life. This upgrade includes one completely new sphere that relates to the ascension and to the fifth dimension. This new sphere will be described in detail to explain how to use the new energy. Includes: Great pictorial descriptions of the Hebrew letters Detailed Kabbalistic map and paradigm of the Tree of Life Hebrew terminology and numbers relating to the Tree of Life Featured channelings through David K. Describes the methods used in pathworking, a Cabala projection technique, in order delve deeper into the subconscious and learn how to train the mind, improve character flaws, obtain knowledge, and experience more adventure. Rabbi Fisdel started writing Roots and Branches in 2013. With a spiritual sense of urgency, he completed the final chapter on April 13, 2019. Less than two weeks later, he passed away of natural and unclear causes. This book, his greatest achievement, has the potential of helping millions understand our existence and why Life is a gift from God. As with the human anatomy comprising organs, ligaments and vessels, Roots and Branches focuses on the anatomy of Creation as taught in the Kabbalah. On a profound yet clear level, Rabbi Fisdel digs deeply into the multiple components of the Kabbalah's Tree of Life - particularly its Ten Sephirot - that are integral to our growth during our time on Earth. Contemplating the intricacy of the anatomy of Creation helps us better understand why we're here: our Soul Purpose, the bigger picture of how we came about and most importantly, our individual roles on the planet in the complete stage production of Life, conducted by God. Without faith in ourselves and our Soul mission, and ignoring the help we continuously receive from the Unseen, we risk losing our purpose of being born. This book helps readers achieve greater understanding of our existence.

The Qabalah is a Western non-religious mystic tradition (differing from the Kabbalah, which is an aspect of Jewish mysticism) offering teachings on the nature of divinity, the creation, the origin and fate of the soul, and the role of human beings. It consists of meditative, devotional, and mystical practices, including astrology, tarot, and magic. The central organizational system of the Qabalah is the Tree of Life - a mystical symbol consisting of ten interconnected spheres and considered to be a map of the universe and the psyche, the order of the creation of the cosmos, and a path to spiritual illumination. This introductory book breaks down the ideas of the Tree of Life into an easy to follow path, and shows how to use it effectively in our lives. Readers will learn: - the meaning of each of the spheres - a ritual and a meditation for each sphere - the gods, archangels, crystals, and magical tools connected to each sphere and how to work with them - how to set up a personal temple and create their own magical symbol - how to chant the Qabalistic prayer to draw down the Archangels for protection This book was previously published in the Hay House Basics series.

The Tree of Life is a collection of writings by Chayyim Vital. In these writings, Vital describes the teachings of his master, Isaac Luria, who is one of the most important figures within modern Kabbalah. Much of the Kabbalah today is based on the teachings of Luria. However, Luria wrote very little during his life. Consequently, Vital is considered to be the primary source and chief interpreter of the teachings of Luria. *The Tree of Life* is considered to be the most authoritative version of Luria's teachings. *The Palace of Adam Kadmon* is the first volume of the Tree of Life. In it, Vital describes the creation of the universe. Vital first describes the creation in general and then proceeds to describe it in great detail. *The Palace of Adam Kadmon* provides a basis for understanding the entire Lurianic system. This new translation of the *Palace of Adam Kadmon* provides new insights into the Kabbalah that have never before been published.

The term is alternatively transliterated into English as Sefirot/Sefiroth, singular Sephirah/Sefirah etc. Alternative configurations of the sephirot are given by

different schools in the historical development of Kabbalah, with each articulating different spiritual aspects. The tradition of enumerating 10 is stated in the Sefer Yetzirah, "Ten sephirot of nothingness, ten and not nine, ten and not eleven." As altogether 11 sephirot are listed across the different schemes, two (Keter and Daat) are seen as unconscious and conscious manifestations of the same principle, conserving the ten categories. In Kabbalah the functional structure of the sephirot in channelling Divine creative life force, and revealing the unknowable Divine essence to Creation is described. As God's attributes to allow Creation to know him, the first sephirah describes the Divine Will above intellect. The next sephirot describe conscious Divine Intellect, and the latter sephirot describe the primary and...

This is the first complete book about the Babylonian Kabbalah, which many people are talking about on the Internet. Assyria in Northern Iraq is the home of Palace Art from the Courts of the Assyrian Empire, where the Tree of Life was routinely shown on walls, tended by winged genies. It represented the King and the Land. It is also arguably a spiritual map and the basis of the Jewish Kabbalah, which was developed later. Many authors have asserted that the Kabbalah came from Egypt but this book shows that its early roots lie in Assyrian Court Art. There are also fascinating parallels to Asiatic Shamanism. All points to Asia, not Africa, as the home of the archetypal Sacred Tree image.

"Fusing Hermetic Qabalah and Peruvian shamanic practices, this book lays out a template for exploring the inner and outer worlds in the tradition of the ancients"-- The oldest, oral methods of teaching Kabbalah through inductive story telling involve the use of powerful imagery that has the depth and connection to make the spheres and paths of the Tree of Life come to life in a non-rational, non-linear way. The images in this book offer a way of making connections using the imagination and the will to take the reader beyond separation and towards Oneness.

Israel Regardie wrote *The Tree of Life*, a book many consider his magnum opus, in 1932. It has continued to sell for decades. And no wonder. Up until the time this book was published, very little information about true high magic was available to the public. In this book, Regardie reveals the secrets of real magic. He begins with an explanation of what magic is and, just as importantly, what magic is not. He explains that it is a spiritual study and practice which, along with forms of yoga, forms the two branches of the tree that is mysticism. Magic is not being a medium or a psychic. Then he explains the tools of the magician, what they mean, and how to use them. He explains the techniques of evocation and invocation, skrying, and astral travel. He shows how the Qabalah unites everything. He even gives a description of the secrets of sexual magick. All of this is in a clear, lucid writing style. This book is simply a must for anyone who is, or aspires to be, a real magician. Although Chic and Sandra Tabatha Cicero were friends of Regardie and are Senior Adepts of the Hermetic Order of the Golden Dawn, what changes could they have made to this classic book? Well, they did change the spelling from British style to American. And they did change his transliterations of Hebrew into the more popular style he used in his later books. But nothing vital was changed or removed. Everything else they added was complementary to the text that was there. And what incredible additions they are! Extensive annotations throughout every chapter; over 100 illustrations; more descriptive contents pages; a glossary, a bibliography and an index. They've even added a biographical note on Regardie and the importance of this book to him and to the occult world. This book contains some of the finest occult writing that has ever been produced. And with the new material by the Ciceros, it becomes a must-have for any magician!
