You're About To Discover The #1 Secret To Generate Passive Income Streams With This Step-By-Step Tutorial And Proven Business Models, Ideas

A passive income is any income you earn without actively engaging in work-related activities. However, a passive income is still work. A major misconception on the subject is that you can set up a passive income today and start making money on autopilot tomorrow. That rarely happens. Most passive income streams, especially those whose nature concentrates on the online space, require that you put in the work now so that later, you may stop working full time. That does not mean you will not work at all; you will. All worthwhile passive income streams require some form of maintenance. With that said, it's easy to understand why many people believe that a passive income means no work at all: because well set up passive income streams can require as little as a few hours of maintenance work per week or month to continue generating revenue. Take the example of a well set up blog. If you put in the time now into creating great, search engine friendly, evergreen content—say about 100-200 pieces of genuinely good and valuable content which would take a year or more—in a year or two, you can stop actively working on the website or blog every day. You can monetize the traffic coming to the website through various strategies such as affiliate marketing and advertising so that you can generate an income even as you post once or twice per week—some blogs continue to earn a passive income each month even without any maintenance work. As

achieving success. It has been said that one line of wisdom can change your life more than volumes of books. Imagine what hundreds of pages of wisdom can do. Year To Success is perhaps the most complete book on success ever written. It uses my "formula" for success: education + inspiration + action = success. Education: each week starts off with two educational articles and ends with two more educational articles. Inspiration: the third day of the week is a "success biography" on someone I believe is one of the most successful people in history. These success biographies are full of inspiration to help keep your flame for success burning on high. Action: each of the educational articles has one or more action steps associated with it. Taking action and getting results are what this book is all about.
