International development efforts aimed at improving girls' lives and education have been well-intended, somewhat effective, but ultimately short-sighted and incomplete. This is because international development efforts often operate under a reductive understanding of the term 'gender' and how it influences the lives of girls and boys. Gender is more commonly conceived by international efforts as characteristics which are ascribed to girls as norms for behaviour. In particular, the analysis in Gender Trouble Makers focuses on the social constructions of gender and the ways in which gender was reinforced and maintained through a case study in rural Nepal. In developing countries like Nepal, promoting access to and participation in existing formal

education programme is clearly necessary, but it is not, in itself, sufficient to transform gender power relations in the broader society. When gender is properly addressed as a process, then all stakeholders involved - researchers, governmental officials, and community members - can begin to understand and devise more effective ways to increase both girl and boy students' enrollment, participation, and success in school. A revised and updated guide to reference material. It contains selective and evaluative entries to guide the enquirer to the best source of reference in each subject area, be it journal article, CD-ROM, on-line database, bibliography, encyclopaedia, monograph or directory. This book analyses the problem of the increasing political exclusion of ethnic, caste and gender groups in democratic Nepal and discusses its consequences for democracy and the stability of the country. While outlining alternative democratic institutions and proposing specific institutions that can include the diverse socio-cultural groups in Nepal, this book: - analyses the Maoist insurgency, arguing that political exclusion was a major cause for its genesis and growth; - examines the causes for the lack of democratic consolidation in Nepal; - provides the first comprehensive critique of the 1990 Constitution, identifying it as an important factor leading to the political exclusion of ethnic groups; - suggests the setting up of a new Constituent Assembly to address the social and political crisis in Nepal; - makes important recommendations to shape an inclusive and democratic Nepal which include federalism; a powerful House of Nationalities; a proportional electoral system; affirmative action policies and reservations; declaration of a secular state; a centralized judicial review; and the protection of minority rights in the Constitution. Overall, the author argues that unless Nepal's ruling elite becomes sensitive to the needs of marginalized and excluded groups, the country could witness an escalation in violence. Highlighting a wide range of issues crucial to strengthening democracy in Nepal, this book is of interest to students and academics studying Nepal and South Asia.

\*\*\*\* The British counterpart to Sheehy (in which it is recommended--and vice versa), distributed in the US by Unipub. Volume 3 completes the 5th edition with 8,833 entries (vol. 1: Science and technology, 1989, 5,995 entries; vol.2: Social and historical sciences, philosophy and religion, 1990, 7,166 entries). While the majority of items are reference books, Walford is a guide to reference material and therefore includes periodical articles, microforms, online, and CD-ROM sources. A special effort has been made to make sure the output of small and specialist presses is not neglected.

The International Guide to Student Achievement brings together and critically

examines the major influences shaping student achievement today. There are many, often competing, claims about how to enhance student achievement, raising the questions of "What works?" and "What works best?" World-renowned bestselling authors, John Hattie and Eric M. Anderman have invited an international group of scholars to write brief, empirically-supported articles that examine predictors of academic achievement across a variety of topics and domains. Rather than telling people what to do in their schools and classrooms, this guide simply provides the first-ever compendium of research that summarizes what is known about the major influences shaping students' academic achievement around the world. Readers can apply this knowledge base to their own school and classroom settings. The 150+ entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick, easy reference. Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries, guiding readers to apply this knowledge to their own classrooms, their curriculums and teaching strategies, and their teacher training programs.

From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials. No rigid definition of reference is applied. In addition to the expected bibliographies, indexes, dictionaries, encyclopaedias, and directories, a number of important textbooks and manuals of general practice are included. While the majority of the items are books, Walford is a guide to reference material. Thus periodical articles, microforms, online and CD-ROM sources are all represented. In this volume a particular effort has been made to improve coverage of the latter two categories.

The first comprehensive book on Bollywood dance culture, *Is It All About Hips?* traces Bollywood dances as they are interpreted, created, and produced in three locations: Mumbai (India), Kathmandu (Nepal), and Los Angeles (USA). In this pioneering work, Sangita Shresthova brings alive the world of Bollywood dance through the chronicling and analyses of live performances, dance classes, film spectatorship, and personal narratives. Watch how dances travel and meanings unravel...
