Since its launch in 2006, the Hamilton Project at Brookings has produced extensive research on how to create a growing economy that benefits all Americans. Its pragmatic work aims to increase opportunities for broad-based wealth, economic security, and enduring growth. *Path to Prosperity*, the first book to emerge from the Hamilton Project, presents important and original work to that end. *Path to Prosperity* focuses on three key criteria for fostering broadly shared economic growth: enhancing economic security, building a highly skilled work force, and reforming the tax system. Income security proposals offer methods for reforming unemployment insurance, protecting against the risk of reemployment at a lower wage after job loss, and improving incentives for retirement saving. Education proposals build human capital by improving each level of education, from preschool programs for poor children to graduate fellowships in math and science. The tax proposals seek to make taxation simpler, more progressive, and better suited to a global economy. Contributors include Roger C. Altman, Reuven S. Aviyonah, Jason E. Bordoff, Kimberly A. This publication is intended for financial aid administrators and counselors who help students begin the student aid process--filing the Free Application for Federal Student Aid (FAFSA), verifying information, and making corrections and other changes to the information reported on the FAFSA. This guide contains the following chapters: (1) The Application Process: FAFSA to ISIR, which explains that the laws governing the FSA programs require that a person apply for aid with a form provided by the Department of Education and that no fee be charged for processing it. Students can fill out a paper FAFSA or they can apply electronically; (2) Filling Out the FAFSA, which provides guidance that supplements the application instructions, and discusses some of the more difficult questions that may arise; (3) Expected Family Contribution (EFC), which describes the EFC formula in detail; (4) Verification, which provides a list and discussion of required verification items; and (5) Corrections, Updates, and Adjustments, which recognizes that there are situations where the original application
