Based on the authors' work with the world's elite sports and business performers, Pig Wrestling gives us the tools to create change whenever and wherever we need it. By applying these principles to our daily lives, we can learn to thrive in complex and messy times.

Life had become so complicated for me lately, that I feel like I am living in a strange dream world. I lost my husband to a freak accident, which saved the sight of a total stranger. Then this total stranger was brought to my aid by the one whom I lost. Through his new eyes he hears a voice in his head, which is the soul of my dead husband. Now my dead husband tells me that this stranger is in love with me. It is something you would expect to see in a movie on the sci-fi channel, not in real life. But the most frightening part of it all is that there is a crazed psycho on the loose that is hunting down single independent women. Will Jesse be a target, if she is, who is there to protect her, now that she is by herself, now that Jeff is gone.

Her life is reassuringly predictable – until an enemy hiding in plain sight decides her squeaky-clean reputation is the perfect cover to commit a crime. When Agent Parker Landon and his FBI team discover that someone at the university has been procuring military-grade hardware by disguising it as test equipment, all evidence points to Ree. After the FBI intercepts a shipment that puts Ree in the clear, Parker is forced to tell her that she's being used as a pawn by an unseen enemy. And now she's in that enemy's crosshairs. Ree turns down the protective detail offered by the FBI and insists on using her inside knowledge to help with the investigation. Parker is leery of bringing a civilian on to the team, but he's surprised at how much fun he has working with Ree, even as he tries to keep her out of harm's way. Parker, Ree, and the FBI team find increasingly worrying evidence that someone is quietly acquiring everything they need to cause destruction on a massive scale. Now, they must uncover the motive and identity of the killer

hiding among Ree's friends and colleagues before it's too late. **Calculated Contagion (Book 2)** Dani Christensen is a vaccine researcher who has spent her career proving she is more than just the daughter of the company's CEO. However, as her accomplishments in contagious disease research grow, the wrong people begin to notice. When Dani is isolated from her colleagues at a well-regarded conference in Europe, she is kidnapped and taken to an isolated camp in the Carpathian Mountains. CIA officers Cam Mitchell and Tyler Scott are sent to observe a suspicious group of armed men in rural Romania. When Cam sees Dani being brought into the camp against her will, he and his partner rescue her and bring her safely back to the United States. The CIA initially believes Dani was kidnapped for ransom, but they soon realize her kidnapper has followed her back to her lab. Now, the CIA must work with their allies in the FBI to catch Dani's kidnapper before he releases a potentially deadly contagion for his own political gain. **Calculated Sabotage (Book 3)** CIA operations officer Quinn King will do whatever it takes to find the person who killed her partner. She soon discovers there is more to the failed launch than IRT has shared with the public. And someone has a vested interest in keeping that information under wraps. When the CIA finds new evidence that someone is actively sabotaging the next launch, they call in Parker, Ree, and Mike from the FBI to help manage a growing number of loose ends. However, once Cam and Quinn realize why the rocket is being sabotaged, it puts them right in the crosshairs of a killer.

It is pollution in the public square, where a toxic smog of adversarial rhetoric, propaganda, and polarization stifles discussion and debate, creating resistance to change and thwarting our ability to solve our collective problems.
