This volume provides guidance on how to design, develop and implement service

management both as an organisational capability and a strategic asset. It is a guide to a strategic review of ITIL-based service management capabilities, with the aim of improving their alignment with overall business needs. It is written primarily for senior managers who provide leadership and direction in the form of objectives, plans and policies. It is also benefits mangers at other levels, by explaining the logic of senior management decisions.

Can you imagine life without your cell phone, laptop, digital camera, iPod, BlackBerry, flat-screen TV, or DVD player? The skyrocketing demand for devices that provide simple, immediate access to large amounts of content is driving required digital storage capacity to unprecedented levels. Designing digital storage into consumer electronics is crucial to the performance and cost of these devices. However, as our requirements for digital content storage grow, so does the formidable difficulty of implementing design solutions that are rugged, long-lasting, power-miserly, secure, network-accessible and can still fit in the palm of your hand! This book provides the background necessary to understand common digital storage devices and media. It helps readers decide which methods of storage work best for which kinds of devices, and then teaches designers how to successfully integrate them into consumer products. * Presents best practices for selecting, integrating, and using storage devices to achieve higher performance, greater reliability and lower cost * Teardown photos provide rare visuals of the "guts" of the devices discussed * Covers hot topics including flash memory, DVRs, Apple iPods,

home networks, and automotive electronics, from basic layouts to standards, advanced features, and exciting growth opportunities

2nd Edition Stuttering & Anxiety Self-Cures (SAC) is believed to be unique in that it offers concrete, step-by-step methods to self-cure stuttering, a disease that many doctors and speech therapists have characterized as "incurable" --all written by an author who has self-cured and has helped (and is helping) others self-cure. This SAC-2nd Edition provides a very real, living, breathing, human story of the author's 25-year battle to overcome stuttering (as a young attorney who couldn't say his own name in court), and this 2nd Edition reveals what the author has learned by be-Friending on Facebook some 2,000 people who stutter (PWS) and actively communicating with 100+ PWS and Skyping with 10-20 of same weekly for the past year. Most compelling, those, who have Skyped with the author regularly, have self-cured. The author has given his book away to countless PWS, and he provides his coaching on Skype at no charge. Anyone who stutters, or who suffers speech-anxiety, should read this unique book and contact the author (at info@leeglovett.com) and launch their own self-cure.
