NEW EDITION! (October 2018). The proven system of trade--based on Structural Target Patterns (ST Patterns)--presented in this book is able to bring a monthly profit equal to 100% or more (on average) of the deposit amount. To be successful in today's Forex, Futures, Indices, Commodities and other liquid markets, most of the knowledge and trading techniques accumulated over the last two centuries are not needed at all. The technical portion of a profitable trading system only needs to include the ST

Patterns method. This method of assessing market movements by using target models gives traders clear and unambiguous signals regarding their actions in the present moment. The graphic figures presented here build upon each other iteratively to create a clear picture of market conditions. Unlike the claims of the most popular technical and fundamental analysis methods, the trading system in this book does not predict market behavior. I no longer need any predictions about prices because their movements have become obvious to me. Following the ST Patterns strategy, managing trading positions becomes simple. It took me many years to establish and improve this trading system, and now it is ready to be used by you. I believe that, at the very least, this book can save traders' time and money. You can spend a whole lifetime in search of the Holy Grail, but it is possible to solve the problems associated with trading in just a few days. The present determines the future! Opportunities to use ST patterns are included in the free preview of the first pages of this book and on my website. Note: This book (ISBN: 1719859833) is with black & white interior. You can also buy a book (ISBN: 1719837384) with a color interior. The month following the book's «Trading Code is Open» publication perfectly demonstrated the possibilities of using the trading system and showed how almost half of the ST Patterns published in this book operate in practice. The technical analysis presented in «Forex Strategy: ST Patterns Trading Manual, EUR/USD Chart Analysis Step by Step, 300% for One Month» book, based on accurate calculations, will help traders consolidate the acquired knowledge, and to increase their own skills with Structural Target Patterns. The study of the GBP/USD pair will help readers understand the importance of determining periods of market uncertainty in a timely fashion. To demonstrate the flexibility of the strategy settings and the formation of short-term uncertainty periods,

the EUR/USD pair is shown on five-minute charts in one working day on May 31. For nine hours of work, the result was approximately + 82% of the initial deposit.

The holy grail of trading Many traders are looking for the holy grail of trading, but can't find it. They search in the wrong direction or too far away. They under estimate the

mental power of trading, or they don't know how to reach this holy grail in themselves. "We need to learn to think and act differently, create a new 'mind set', one which often goes against our nature. Before you can achieve this you have a long way to go. This book will help you." The holy grail of trading is all about the mindset you need to be successful in trading. It shows you how to achieve great results by working on yourself. And it tells you how you do that. This book has already saved many Dutch traders, lots of money. "Traders and investors, who add loss to loss, have to start looking at themselves, and not at the volatility of the markets. Many of the pitfalls are retraceable to emotional trading, which can leave massive holes in a trader's portfolio. According to the writers of The Holy Grail of Trading only 20% of trading is knowledge, the other 80% is in your head. This is also the most important message of the book. Trading requires behaviour which goes against your intuition. This is why the many pitfalls to the traders are discussed. The fear to lose, getting out of a transaction too early, ignore their earlier decisions or trade too often. Many traders will sadly recognise themselves in this." -De Financiële Telegraaf, the Netherlands, 6 October 2012 With the publication of this book, the website [theholysgrailoftrading.com](http://theholysgrailoftrading.com) was launched. On this website traders can do several tests to test their discipline, emotion and mindset.

The quest for the Holy Grail in Forex is a metaphorical journey in financial analysis applied to the currencies' market. Much like the Templar knights sought the Holy Grail over the centuries, the author guides the trader

along dark path, in a quest for the golden rules that underpin profit in the currency trading. Some of the main tools in classic financial analysis are here analyzed in depth, clarifying which of them actually work in the current markets, and reaching the conclusion that common technical indicators alone are not enough to take a trader to the Holy Grail of financial success. To help the reader develop a firm grasp on currency trading analyses and be consistently profitable over time, the author will explore how to understand the moves of the big players and how to follow them. The author suggests 15 golden rules that can be used as a guide in the arduous search for the Holy Grail in forex. A new approach to the financial analysis. A quest for truths hidden to most; a different approach to the classic technical analysis. Reading and mastering the contents of this book, a knowledgeable trader will learn not to rely on now obsolete technical analysis indicators or to lean on the advice of the most diverse experts, but to adopt a holistic approach, and become able to assess what really moves the markets, how the balance of powers between the currencies works and fluctuates at any given moment. Ad Maiora.

If you are fed up with trading systems that promise the earth and fail to deliver then The 10XROI Trading System will not disappoint. The leading foreign exchange broker conducted a study that found that winning traders had something in common. Their wins were much larger than their losses. Many trading systems are designed to have lots of wins but that doesn't make them profitable, they just appeal to the Holy Grail seeker who is looking

for a trading system that never loses. By trading a high probability system that gives a very large risk reward ratio like The 10XROI Trading system, you will automatically have a much higher chance of actually making a profit in the Forex markets. Written by a trader with over eight years' experience in trading foreign currencies, this book is written in an easy to comprehend style with lots of illustrations and trading examples to help clarify each part of the system. The system is simple and easy to follow and takes up a very small amount of time as it uses the daily and hourly time frames. This makes it easy to trade around most jobs. Most importantly it explains every part of the system including the correct trading psychology and money management which most systems leave out. This is a typical review from a student. "I recommend the "10XROI Trading System" book for novice traders & experienced traders. This is a forex system combined with perfect money management that makes it incredible. This is a must book for every forex trader." Bankim Vaidya

IF, the trader could only find that one "special thing" then their accounts could achieve amazing returns. Some call this "special thing" the holy grail, others say there is no such thing as the holy grail. Others

Download Free The Holy Grail Forex Trading System Foreign Exchange Day Trading Was This The Ultimate Financial Currency Daytrading Strategy

say they have a special "robot" or "indicator" or "system" or "methodology" or "pattern" or a myriad of other things that although aren't the "holy grail" at least contain keys to the holy grail, and if only they could find the right combination of these special keys then their life would be set for themselves and for generations to come. Most traders or wannabe traders have purchased several dozen books, and have their computer monitor(s) filled with fancy lines, charts, graphs, vivid colors, flashing and beeping signals. In addition to periodicals, newspapers, website favorites, television news channels, mobile telephone apps, and a plethora of other "doodads" to keep them up to date and "educated" and informed as to their "portfolio performance." Other traders who "think" they're serious, and want to impress their friends and family have the latest computers with multiple duplexed computer monitors with the absolute fastest processors and video cards and lighting fast internet connections. With the thought that one millisecond of delay will make them "miss the boat" on their whiz bang "special key" to the "holy grail" of promised and back tested trading riches. Well, if you are looking for another book that will help promote ANY of these above ideas, you definitely have the WRONG book in your hands right now. I have been down THAT path for over 20 years, and I am here to tell you right here, and right now, THAT DOG WON'T HUNT!! You are wasting your

time, your precious resources and capital, and "feeding the monster" that the financial media has created and designed to perform that task. They are masters at their game, and you have been a loyal puppet to the puppet masters. What you have in your hands, right here, and right now, will change the way you look at trading/ investing for the rest of your life. I guarantee it!! With this book, your trading profits will SOAR. Your stress level will become NON-EXISTENT, annualized double digit returns will become MONTHLY double digit returns with much lower risk than you ever thought possible, with no need for all of the "fancy stuff." What I will introduce you to in this book, is how to change your paradigm about trading and investing, and by doing so, your trading profits will SOAR. You will find out that everything you THOUGHT you knew was really what you were TAUGHT to learn, rather than what was a REAL way to make money from the financial markets. Who do you think TAUGHT you these things, other than the very people/companies that were intentionally conceived to methodically strip you of your precious trading capital? If after reading this book, if you do not 100% believe within your heart of hearts, that I have tapped into the ACTUAL holy grail of trading, then I will gladly refund 100% of your purchase price for this precious piece of information that you have in your hands right this moment. I will show you, without a shadow of doubt,

that my method of thinking and trading will improve your bottom line performance and enhance your portfolio. If it doesn't then simply ask for a full refund, and it will be granted, NO QUESTIONS ASKED. I KNOW without a shadow of a doubt, that this method has worked, will work, and will ALWAYS work, because IT HAS TO WORK. There are basic business principles that will always work no matter what. Did you hear that? They work, NO MATTER WHAT!!

Read this Joseph Quattrini book on your PC, Mac, smart phone, tablet or digital device or in paperback. If you need to learn the trading business from the ground up then How to Trade Futures Stocks and Forex without Indicators is definitely a good starting point for you. I encourage you to read it as many times as it takes for it to become clear to you as to what you do and do not need to learn to be successful in this business from the start. There are no money back guarantees in the financial markets and you must know the right information from the start to have a chance of becoming consistently profitable and financially successful. Most brand new traders spend many many hours looking for that magical combination of indicators that will reveal the "Holy grail" of winning trading strategies. They should instead be spending their time on learning what makes the market actually work which is supply and demand. This short book tells you how to invest

Download Free The Holy Grail Forex Trading System Foreign Exchange Day Trading Was This The Ultimate Financial Currency Daytrading Strategy

and trade right from the beginning of your career without the use of any indicators and tells you why you don't need them. The professional advice I give you in this book will empower you to have confidence and zero fear of going in the live markets and accurately initiating a low risk high reward position with which you can have a high probability outcome from being a live market participant and do it while not using any indicators on your trading charts. Becoming a successful self-directed investor and trader is not nearly as difficult as one would think as long as they have the proper education and proper knowledge base right from day one, it takes a while but you can do it!

An accessible guide to trading the fast-moving foreign exchange market The foreign exchange market, or forex, was once dominated by global banks, hedge funds, and multinational corporations, but that has all changed with Internet technology and the advent of online forex brokers. Now, hundreds of thousands of traders and investors around the world can participate in this profitable field. Written by forex expert Kathy Lien, *The Little Book of Currency Trading* will show you how to effectively invest and trade in today's biggest market. Page by page, she describes the multitude of opportunities possible in the forex market, from short-term price swings to long-term trends, and details practical products that can help you achieve success, such as currency-

based ETFs. Explains the forces that drive currencies and provides strategies to profit from them Reveals how you can use various currencies to reduce risk and take advantage of global trends Examines financial vehicles that can help you make money without having to monitor the market every day The Little Book of Currency Trading opens the world of currency trading and investing to anyone interested in entering this dynamic arena.

I hope you sitting down, cause I am laughing on the floor at the notion of hearing, one more little talk about "the Forex Indicators, and how you can be the next Forex Millionaire using such and such crossing lines" See, the reason there are winners and losers in life and Forex as well, is some can see deception coming from a 100 miles away and some refuse to look at the truth. See, I was taken for a sucker, and was brought on a rollercoaster of books, trainings, Forex education like there is no tomorrow... But it took me nearly 3 years, to wake up from the magic little cozy balloon of guru's webinars and the next Big Talking head. During this time of course, I was spending thousands of dollars on books and Forex Robots and all kind of crap...you know what I am talking about. My family and friends, thought I have lost my mind, spending all this time in front of the screen(you may recognize yourself here) and looking at "stupid charts" I kind of had become the laughing stock of the company " Look, the Forex

Head is Alive" Eventually it got so bad, that I lost all interest in trading and was ready to quit... One afternoon, I overheard a conversation while at the golf course...yeah I am a snooper. There were two guys, sipping on something that came with a "small umbrella on top" and one of them was saying something so impressive, that made my ears become as big as an elevator shaft. The guys were speaking of a stock trader, turn to be a Forex trader, that was raking in the vicinity of 20 to 30k a month, from his house computer, doing it with couple trades a month. Listen to this, the guy was not a screen struck maniac like myself, he was not some kind of national television speaker, it turned out he was a member of the same golf club, I was a member too. Now, you can imagine my excitement and hopes came up, I was determined to meet this guy and squeeze every ounce of knowledge out of him... However, there was a big problem, that trader, I will call him trader X, for familiar reasons, did not go to the bars, was not in the social networks, and was not holding any training and educational courses on "how to be the next forex millionaire." He was quietly running the Forex Cash machine of his, had a large family and was spending time in his huge house. Now, I came in with a plan, where I would meet Trader X at one of the Club Events...you know those fund raiser things, Trader X was known for one thing, dumping a large sums of money on different causes

that he cared about. I was able to talk Trader X in to giving me a half hour short consult. At the end I offered trader X to pay him for his services, and that's where my frustration became full, Trader X was not for sale. It didn't matter what I offered...whatever that was, it was all I had, he would not chime in to my idea of training me. Finally after much bugging him, he gave in and we started a regular weekly meetings, but he refused to get any money. He was saying..."Boy you are my fun today, all that trading is too boring and makes me sad." I was like, "K, if it is that boring, make me sad too" you know, let the stashes of cash come down. Eventually I moved to a different city and never heard of Trade X again. What I am about to reveal in this book is the real dirty truth about Forex and how you too can be the next Trader X. Forex trading is not all it is cracked up to be, the real winners are not your daily gurus, I will teach you everything that Trader X Taught me and more. You have a choice, keep going in circles, looking for the Holy Grail of Froex, or move your fingers, make a few mouse clicks and meet me on the other side. Take a click of faith! See you on the other side!

The proven system of trade based on Fractal Corridors is able to bring a monthly result equal to 100% or more of the deposit amount. The ST Trading Strategy is also profitable in the Forex, Futures, Indices, Commodities and other liquid markets. The technical portion of a profitable trading system only needs to include the Structural Target Patterns Strategy. Unlike the claims of the most popular technical and fundamental analysis methods, the trading system in this book does not predict market behavior. This method of assessing market movements by using Target models gives traders clear and unambiguous signals regarding their actions in the present moment. The graphic figures build upon each other iteratively to create a clear picture of market conditions. Following the ST Patterns, managing trading positions becomes simple. It took me many years to establish and improve this trading system, and now it is ready to be used by you. You can spend a whole lifetime in search of the Holy Grail, but it is possible to solve the problems associated with trading in just a few days.

FOREX is the largest financial market in the world with daily trading volume that can surpass 4 trillion dollars a day.
