100 years that crafted an iconic American company A century ago, the Halls were a poverty-stricken family trying to make their way in a small Nebraska town. Today, they are a golden example of a family that has created a groundbreaking company. Hallmark: A Century of Caring is the inspirational story of an American dream brought to life through hard work, strong values, and a genuine care for both employees and customers. Beginning with a heartfelt introduction from famed poet Maya Angelou, the reader is taken on a journey that follows the Hall family from Norfolk, Nebraska, to Kansas City, Missouri, the eventual home of Hallmark. Through boom times, war times, and the Great Depression, the company grew and flourished, always with the belief that its products and services must enrich people's lives. One hundred years after Joyce Hall first stepped off of the train in Kansas City, Hallmark is poised and ready for the future. This book is an enduring salute to the company and a historic journal of a truly iconic American company.

Extra-grammatical morphology is a hitherto neglected area of research, highly marginalised because of its irregularity and unpredictability. Yet many neologisms in English are formed by means of extra-grammatical mechanisms, such as abbreviation, blending and reduplication, which therefore deserve both greater attention and more systematic study. This book analyses such phenomena.
