Exploring representations of queer aging in North American fiction, this book illuminates a rich yet previously unheeded intersection within American culture. At a time when older LGBTQ persons gradually gain visibility in gerontological studies and in the media, this work provides a critical perspective concerned with the ways in which the narratives and images we have at our disposal shape our realities. Each chapter shines a spotlight on a significant work of queer fiction, beginning with post-WWII novels and ending with filmic representations of the 2010s, exploring narratives as both reflections and agents of broader cultural negotiations concerning queer sexuality and aging. As a result, the book not only redresses queer aging's history of invisibility, but also reveals narratives of queer aging to be particularly apt in casting new light on the ways in which growing older is perceived and conceptualized in North American culture.

"This book is, in essence, a collection of stately marches. it came about after an exploration of the French rudiments contained in Guy Lefèvre's 'Le Tambour - Technique Superieure'. After spending some time working with that book, I thought why not combine French and American rudiments in one setting?"--Preface.

Dancing Women: Female Bodies Onstage is a spectacular and timely contribution to dance history, recasting canonical dance since the early nineteenth century in terms of a feminist perspective. Setting the creation of specific dances in socio-political and cultural contexts, Sally Banes shows that choreographers have created representations of women that are shaped by - and that in part shape - society's continuing debates about sexuality and female identity. Broad in its scope and compelling in its argument Dancing Women: * provides a series of re-readings of the canon, from Romantic and Russian Imperial ballet to contemporary ballet and modern dance * investigates the gaps between plot and performance that create sexual and gendered meanings * examines how women's agency is created in dance through aspects of choreographic structure and style * analyzes a range of women's images - including brides, mistresses, mothers, sisters, witches, wraiths, enchanted princesses, peasants, revolutionaries, cowgirls, scientists, and athletes - as well as the creation of various women's communities on the dance stage * suggests approaches to issues of gender in postmodern dance Using an interpretive strategy different from that of other feminist dance historians, who have stressed either victimization or celebration of women, Banes finds a much more complex range of cultural representations of gender identities.

Soon after film came into existence, the term epic was used to describe productions that were lengthy, spectacular, live with action, and often filmed in exotic locales with large casts and staggering budgets. The effort and extravagance needed to mount an epic film paid off handsomely at the box office, for the genre became an immediate favorite with audiences. Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years. Length was, and still

is, one of the traits of the epic, though monolithic three- to four-hour spectacles like *Gone with the Wind* (1939) and *Lawrence of Arabia* (1962) have been replaced today by such franchises as the Harry Potter films and the *Lord of the Rings* trilogy. Although the form has evolved during many decades of existence, its central elements have been retained, refined, and modernized to suit the tastes of every new generation. The *Encyclopedia of Epic Films* identifies, describes, and analyzes those films that meet the criteria of the epic—sweeping drama, panoramic landscapes, lengthy adventure sequences, and, in many cases, casts of thousands. This volume looks at the wide variety of epics produced over the last century—from the silent spectacles of D. W. Griffith and biblical melodramas of Cecil B. DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg. Each entry contains: Major personnel behind the camera, including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and Blu-ray availability Resources for further study This volume also includes appendixes of foreign epics, superhero spectaculars, and epics produced for television, along with a list of all the directors in the book. Despite a lack of overall critical recognition and respect as a genre, the epic remains a favorite of audiences, and this book pays homage to a form of mass entertainment that continues to fill movie theaters. The *Encyclopedia of Epic Films* will be of interest to academics and scholars, as well as any fan of films made on a grand scale.

"Well, girls..." Sarah said, sinking down to sit on the carpeted floor of the elevator. "What are we going to do while we wait for the repairmen?" Wanda sputtered in delight. She couldn't believe that Sarah had said something like that. Maybe there were interesting people in the building after all. "It is getting kind of hot in here," Sarah said, shrugging her shoulders. "Why don't we sit here nude and play some cards. That ought to set the repairmen on their ears when they get here. Can you imagine their faces when they open the elevator doors and find us naked?" Lisa giggled. The idea was simply outrageous. She felt like doing something outrageous for a change. Lisa took a deep breath. Then she slipped out of her dress and tossed it in the corner. "I'm willing to give those repairmen a treat," she giggled. "I can hardly wait to see their faces." Wanda giggled too. "Count me in," she decided. "I just hope that this elevator doesn't open up into the lobby. There's going to be a lot of shocked people if they bring it straight down." Left sexually unsatisfied by her husband, Lisa finds herself wondering about all those dirty deeds other lucky women get up to. So when she spies her wild neighbors going at it like rutting rabbits it sends shivers of forbidden anticipation racing through her hot body. And she's not alone in those desires for fellow building tenants Wanda and Sarah are exactly of like mind and wanton way. What will the trio do when

they find themselves trapped in a faulty elevator? And how will they handle the lucky repair man that comes their aid. What follows is a bacchanalian display of lewd lusciousness as each woman convinces their partner to embark on a swinging escapade in a group-menage extravaganza. How far will the trio go and what buttons will they dare to push. Written in an abashedly graphic prose and featuring all manner of libidinous deed and device, including same-room full-swapping, multi-partner rutting, mutual gamahuching, and every position in between, the wanton wives of this apartment block are about to get very familiar with each-other.

Composer, conductor and operatic polymath Daron Hagen has written five symphonies, a dozen concertos, 13 operas, reams of chamber music and more than 350 art songs. His intimate, unsparing memoir chronicles his life, from his haunted childhood in Wisconsin to the upper echelons of the music world in New York and Europe. Hagen's vivid anecdotes about his many collaborators, friends and mentors—including Leonard Bernstein, Lukas Foss, Gian Carlo Menotti, Paul Muldoon, Ned Rorem, Virgil Thomson and Gore Vidal—counterpoint a cautionary tale of the sacrifices necessary to succeed in the brutally unforgiving business of classical music.

Examines gender roles in contemporary foreign and Hollywood films amid changing social, political, cultural, and economic conditions.

The best, most provocative reviews, interviews, columns, and essays written by the entertaining, idiosyncratic, and influential music writer Chuck Eddy over the past twenty-five years.

Is *The Marriage of Figaro* just about Figaro? Is Don Giovanni's story the only one--or even the most interesting one--in the opera that bears his name? For generations of critics, historians, and directors, it's Mozart's men who have mattered most. Too often, the female characters have been understood from the male protagonist's point of view or simply reduced on stage (and in print) to paper cutouts from the age of the powdered wig and the tightly cinched corset. It's time to give Mozart's women--and Mozart's multi-dimensional portrayals of feminine character--their due. In this lively book, Kristi Brown-Montesano offers a detailed exploration of the female roles in Mozart's four most frequently performed operas, *Le nozze di Figaro*, *Don Giovanni*, *Così fan tutte*, and *Die Zauberflöte*. Each chapter takes a close look at the music, libretto text, literary sources, and historical factors that give shape to a character, re-evaluating common assumptions and proposing fresh interpretations. Brown-Montesano views each character as the subject of a story, not merely the object of a hero's narrative or the stock figure of convention. From amiable Zerlina, to the awesome Queen of the Night, to calculating Despina, all of Mozart's women have something unique to say. These readings also tackle provocative social, political, and cultural issues, which are used in the operas to define positive and negative images of femininity: revenge, power, seduction, resistance, autonomy, sacrifice, faithfulness, class, maternity, and sisterhood. Keenly aware of the historical gap between the origins of these works and contemporary culture, Brown-Montesano discusses how attitudes about such concepts--past and current--influence our appreciation of these fascinating representations of women.

"Psychoanalysis is dead!" Again and again this obituary is pronounced, with ever-increasing conviction in newspapers and scholarly journals alike. But the ghost of Freud and his thought continues to haunt those who would seal the grave. The Legend of Freud shows why psychoanalysis has remained uncanny, not just for its enemies but for its advocates and practitioners as well—and why it continues to fascinate us. For psychoanalysis is not just a theory of psychic conflict: it is a thought in conflict with itself. Often violent, the conflicts of psychoanalysis are most productive where they remain unresolved, thus producing a text that must be read: deciphered, interpreted, rewritten. Psychoanalysis: *legenda est*. Review "The Legend of Freud is a fine example of what can be done with Freud's texts when philosophical and literary approaches converge, and you leave the couch in the other room. . . . Like Lacan and Derrida, Weber doesn't so much explain or interpret Freud as engage him, performing what Freud would have called an *Auseinandersetzung*, a discussion or argument that's also a taking apart, a deconstruction. . . . Deconstruction has picked up a bad name, especially in the minds of those who don't understand it; but this wouldn't be the case if there were more books like Weber's. The Legend of Freud is the best deconstructive work I've seen lately, and the best response to Freud; it merits close attention from anyone who wants a challenge, not merely a guide to what's right and wrong. . . . Weber is brilliantly imaginative, respectful of his subject and his readers, and productive of new ideas." —Village Voice Literary Supplement

"Much music was written for the two most important dances of the 18th and 19th centuries, the minuet and the waltz. In *Decorum of the Minuet, Delirium of the Waltz*, Eric McKee argues that to better understand the musical structures and expressive meanings of this dance music, one must be aware of the social contexts and bodily rhythms of the social dances upon which it is based. McKee approaches dance music as a component of a multimedia art form that involves the interaction of physical motion, music, architecture, and dress. Moreover, the activity of attending a ball

involves a dynamic network of modalities--sight, sound, bodily awareness, touch, and smell, which can be experienced from the perspectives of a dancer, a spectator, or a musician. McKee considers dance music within a larger system of signifiers and points-of-view that opens new avenues of interpretation"--[Publisher description]
