?ABOUT THE BOOK: Soil Mechanics and Foundation Engineering (Geo technical Engineering) is a fast developing branch of Civil Engineering and its study is essential for the successful execution and maintenance of several civil engineering works. The subject of Soil Mechanics and Foundation Engineering forms a part of the curriculum for the students of Civil Engineering. A good text book for the subject is therefore necessary to facilitate proper comprehension of the subject by the students. There are several books available on the subject Soil Mechanics and Foundation Engineering, but the author feels that each of the available books is lacking in one respect or the other. As such none of the available books on the subject is complete in all respects. The author has therefore made an earnest attempt to bring out a book on the subject which may be reckoned as a complete text book in all respects. The text of the book has been divided in two Parts. The Part I deals with the Fundamental Principles of Soil Mechanics. The Part II deals with the Earth Retaining Structures and Foundation Engineering. The subject matter has been presented in a simple unambiguous language which is easy to comprehend. The book covers the syllabus of this subject prescribed by the most of the Indian Universities for the undergraduate courses. ?OUTSTANDING FEATURES : The text has been divided into 2 parts:- (i) Fundamental principles of soil mechanics (ii) Earth retaining Structures & Foundation Engg. For some time now, the professional and general public in the Czech Republic have been receiving incomplete and often biased information on complementary and alternative medicine (CAM). Leading European and world authorities – the World Health Organization (WHO), the Council of Europe, European research CAMbrella funded by the European Commission, European network EUROCAM, are all entirely in favour of CAM, and without exception recommend CAM research and integration into the routine care. The contradiction between 'here and there' is literally explosive. The 'world' is entirely elsewhere. Respective details are given in the information publication 'Alternative Medicine (CAM) in the

World', published by the Professional Chamber Sanator – the Union of Biotronicists of Josef Zezulka. Our Professional Chamber has recently become a member of ANME – Association for Natural Medicine in Europe, EUAA – European Ayurveda Association and joined the European Commission's EU Health Policy Platform. We hope that our activities will contribute to the education of the professional public in the realm of CAM. In any country, Civil and Structural engineers build structures of different kinds that can be used by the general public, and therefore, are quite important. To explain it better, you can name structures like bridges, roads, buildings, and similar other constructions. The Uttar Pradesh Subordinate Services Selection Commission (UPSSSC), therefore, conducts a competitive exam named UPSSSC JE (CE). UPSSSC conducts UPSSSC JE (CE) to induct competent Civil and Structural engineers for implementing various construction-related schemes of Uttar Pradesh Government. EduGorilla, in its endeavor of easing the preparation of the candidates offers two great preparatory tools- UPSSSC JE (CE) mock tests and UPSSSC JE (CE) online test series. The problems covered by these tools carry a great possibility of appearing in UPSSSC JE (CE). Thus, they will prove to be the great speed boosters for your preparation. In this article, you will receive information regarding these tools and the exam.
