Exposing the self-help myths that make us all more miserable. This is what your psychologist would really tell you—if he thought you could handle it! This is the kick up the backside the self-help genre needs: an intelligent, provocative and thought-provoking expose of the modern myths that we're told make us happier, but in reality screw us up. Clinical psychologist, Dr Stephen Briers shines a light into the dark corners of self-help and explodes the myths, false hopes, quack philosophies and unrealistic expectations it routinely advocates. It is a refreshing antidote to the 'same old same old' approaches, offering a radical re-think of the way we approach problems in our lives, offering empowering new perspectives and expert advice on avoiding the biggest life traps. Dr Briers questions the perceived wisdom, shakes up the status quo, and encourages us to think again.

Describes why men are attracted to strong women and offers advice on ways a woman can relate to men and gain a man's love and respect.

In Western societies, many traditional feminist claims have already been fulfilled both in law and in official discourse. Indeed, legislative steps have already been taken towards securing civil and political rights and equal opportunities for women. This, of course, is not the case in many other regions of the world, as some of the chapters in this book clearly testify. Yet, notwithstanding the gains achieved in Western societies, residual forms of resistance and prejudice still persist in discourses, categories and discriminative practices in this so-called "post-feminist" era. Furthermore, new manifestations of asymmetries in gender relations and new ways of thinking and experiencing subjectivity are currently emerging, as a result of growing globalisation, economic crises, migration patterns, female sex and labour trafficking, trans-nationalism, and new technologies, not to mention the beauty and body sculpting industries.

Lee thought divorce was in the cards. But ten months after telling him that she wanted that divorce, Duncan was diagnosed with cancer—and eight months later, he was gone. Karen hoped her problems would be solved after Duncan's death—but instead, she found that, without his ranting, raving, and screaming taking up space in her life, she had her own demons to face. Luckily, Duncan had inadvertently left her the keys to her own salvation and healing—a love of Jungian psychology and a book that was to be her guide through the following years. In *The Full Catastrophe*, Karen explores Jungian analysis, the dreams she had during this period, the intuitive messages she learned to trust in order to heal, and her own emotional journey—including romances, travel adventures, and friends. Insightful and brutally honest, *The Full Catastrophe* is the story of a well educated, professional woman who, after marrying the wrong kind of man—twice—finally resurrects her life.
